

# “We Shine” Protection Linked Plan Extra Bonus Promotion

Promotional period: 1 April 2025 to 30 June 2025 (both dates inclusive)

Unless defined otherwise, those capitalized terms shall have the same meanings ascribed to them in the Glossary section.

## Important Notes:

1. “We Shine” Protection Linked Plan (“We Shine”) is an insurance policy issued by Chow Tai Fook Life Insurance Company Limited (“CTF Life” or “the Company”). Your investments are subject to the credit risk of the Company.
2. As part of your death benefit is linked to the performance of the Investment Choices you selected from time to time, your death benefit is subject to investment risks and market fluctuations. The death benefit payable may not be sufficient for your individual needs.
3. All premiums you pay towards “We Shine”, and any investments made by the Company in the underlying funds corresponding to the Investment Choices you selected, will become and remain part of the assets of the Company. You do not have any rights or ownership over any of those assets. Your recourse is against the Company only.
4. Your return on investments is calculated by the Company with reference to the performance of the underlying funds corresponding to the Investment Choices selected by you. The return of investments under “We Shine” shall be subject to the charges of “We Shine” and may be lower than the return of the corresponding SFC-authorized fund.
5. The Investment Choices available under “We Shine” can have very different features and risk profiles. Some may be of high risk.
6. “We Shine” is designed to be held for a long term period. Early termination, surrender and partial withdrawal from the Basic Account, exercising premium holiday or reduction in premium of your investment-linked assurance scheme (“ILAS”) policy may result in a significant loss of your investment and premiums paid, and will affect the death benefit and bonuses to be awarded (if applicable). Poor performance of underlying funds may further magnify your investment losses, while all charges are still deductible.
7. This ILAS policy is subject to a surrender charge of up to 16.5% of the Account Value of the Basic Account for up to 5 years with premium payment period of 5 years, or up to 40% of the Account Value of the Basic Account for up to 9 years with premium payment period of 20 years. It is only suitable for investors who are prepared to hold the investment for a long term period.
8. If you are not prepared to hold your policy (i) with premium payment period of 5 years for at least 6 years; or (ii) with premium payment period of 20 years for at least 9 years, the policy is not suitable for you and it may be cheaper to purchase an insurance policy and make separate fund investments. You should seek independent professional advice.
9. This ILAS policy will no longer provide high life protection when the insured dies on or after the later of (i) the Policy Anniversary on or immediately following insured’s 65<sup>th</sup> birthday; or (ii) the Policy Anniversary immediately following the end of the premium payment period. The amount of death benefit payable may be significantly reduced.

# Important Notes: (Continue)

10. Lump sum premium is not subject to high life protection as it only provides death benefit of 105% of the corresponding Account Value.
11. With no premium contribution during the period of premium holiday, the value of your policy may be significantly reduced due to fees and charges, which are still deductible during the period of premium holiday.
12. The investment returns of your ILAS policy may be subject to foreign exchange risks as some of the underlying investments may be denominated in a currency which is different from that of your ILAS policy.
13. More importantly, you should be aware of the following regarding the insurance charge:
  - (i) Part of the fees and charges you pay that will be deducted from the value of your ILAS policy will be used to cover the insurance charge for the life coverage.
  - (ii) The insurance charge may increase significantly during the term of your policy due to factors such as age and investment losses, etc. This may result in significant or even total loss of your premiums paid.
  - (iii) You should consult your consultant for details, such as how the insurance charge may increase and could impact the Policy Account Value of your ILAS policy.
14. Investment involves risk. You should not purchase "We Shine" unless you understand it and your consultant has explained to you how it is suitable for you. The final decision is yours.
15. You should not rely solely on this flyer for investment decisions. Please read the offering documents of "We Shine" carefully for further details, including the risk factors.
16. You should read the offering documents of "We Shine" (including Product Guide, Investment Guide and Product Key Facts Statement) and the underlying funds carefully before making your decision, which will be made available upon request or downloaded at our website: [www.ctflife.com.hk](http://www.ctflife.com.hk), free of charge.

Investment involves risks, and the value of investments may go up as well as down. Investment returns are not guaranteed. Past performance is not indicative of future performance.

Premium payment period (Years)	Mandatory Contribution Period (Policy Months)
5	24
20	36

During the Mandatory Contribution Period, you are required to pay the Basic Premium and not allowed to adjust the amount of the Basic Premium, make withdrawal from your ILAS policy and exercise premium holiday. Please refer to section of **Mandatory Contribution Period** in the Product Guide for details.

## Premium

### Basic Premium

You may choose to pay your Basic Premium monthly, semi-annually or annually. The minimum amount requirement of Basic Premium is shown in the following table.

Premium Payment Frequency	Premium Payment Period (Years)	
	5	20
Monthly	US\$288 / HK\$2,300	US\$144 / HK\$1,150
Semi-annually	US\$1,728 / HK\$13,800	US\$864 / HK\$6,900

### Lump Sum Premium

After the premium payment period and while the ILAS policy is in force, you can choose to pay lump sum premium with minimum amount of US\$600 / HK\$4,800, subject to our approval and underwriting requirements.

Please refer to the section of **Premium** in the Product Guide for details.

## Death Benefit

In the unfortunate event of the death of the insured, while the policy is in force, we will pay the Beneficiary a death benefit, which will be calculated as follows:

Period	Death Benefit
<p>If the insured dies before the later of (i) and (ii):</p> <p>(i) the Policy Anniversary on or immediately following insured's 65<sup>th</sup> birthday ("Insured Aged 65"); or</p> <p>(ii) the Policy Anniversary immediately following the end of the premium payment period</p>	<p><b>High Life Protection</b></p> <p>The higher of:</p> <p>(i) the sum insured* less the aggregate amount of withdrawals made from the Basic Account (if any); or</p> <p>(ii) 105% of the Account Value of the Basic Account on the Day of Receipt of death claim;</p> <p>Plus</p> <p>105% of Account Value of the Top-up Account on the Day of Receipt of death claim</p> <p>* Please refer to sub-section of <b>Sum Insured</b> in the Product Guide for details.</p>
<p>If the insured dies on or after the later of (i) and (ii):</p> <p>(i) Insured Aged 65; or</p> <p>(ii) the Policy Anniversary immediately following the end of the premium payment period</p>	<p><b>Low Life Protection</b></p> <p>The higher of:</p> <p>(i) Total Basic Premium Paid less the aggregate amount of withdrawals made from the Basic Account (if any); or</p> <p>(ii) 105% of the Account Value of the Basic Account on the Day of Receipt of death claim;</p> <p>Plus</p> <p>105% of Account Value of the Top-up Account on the Day of Receipt of death claim</p>

Any unpaid fees and charges will be deducted from the death benefit payable to the Beneficiary(ies). Please refer to the sub-section of **Death Benefit** under the section of **Sum Insured and Death Benefit** in the Product Guide for details.

Please be aware of the following regarding the death benefit:

- Although "We Shine" is a life insurance policy, because part of your death benefit is linked to the performance of the underlying funds corresponding to the Investment Choices you selected from time to time, the death benefit is subject to investment risk and market fluctuations. Any partial withdrawal, reduction of the amount of the Basic Premium, exercise of premium holiday or poor performance of the underlying funds may also reduce the death benefit amount, which may not be sufficient for your needs.
- The death benefit may drop significantly (i.e. no longer provide high life protection) if the insured passes away on or after the later of Insured Aged 65 or the Policy Anniversary immediately following the end of the premium payment period. The period with high life protection may be very short and may not be sufficient for your insurance needs.
- Reduction of the amount of the Basic Premium after the Mandatory Contribution Period will as a result, lower the Total Basic Premium Payable and the sum insured, which is used to calculate the death benefit.
- Lump sum premium is not subject to high life protection as it only provides death benefit of 105% of the corresponding Account Value.
- Prior to any application of early termination, surrender, partial withdrawal from the Basic Account, exercising premium holiday or reduction in Basic Premium of your ILAS policy, it is important for you to evaluate if the death benefit is sufficient to meet your needs after such reduction.

## Extra bonus Claw Back

- (i) the policy is surrendered within first 5 Policy Years; or
- (ii) the policy is terminated due to any Basic Premium due is not fully paid within first 5 Policy Years; or
- (iii) the premium holiday has been exercised within first 5 Policy Years; or
- (iv) the amount of Basic Premium has been reduced within first 5 Policy Years; or

Upon occurrence of above events (iii) and (iv), the extra bonus will be clawed back by the deduction of notional units of Investment Choices at the Unit Price on the next available Valuation Date immediately after the effective date of the corresponding event in proportion to their respective values in the Basic Account.

Upon occurrence of above event (v), the extra bonus will be clawed back from the suicide proceeds and not subject to the surrender charge.

The proceeds will not include the extra bonus if you cancel the policy within the cooling-off period. For the details of the payment to be refunded under cooling-off, please refer to sub-section of Cooling-off Period under the section of General Information in the Product Guide.

### Illustrative example for calculation of the extra bonus with sum insured of HK\$5,000,000

Age of insured at policy issuance	40
Premium Payment Period	20 years
Premium Payment Frequency	Annually
Annual Premium	HK\$100,000
Sum Insured	HK\$5,000,000
Applicable Extra Bonus Rate	28%
Extra Bonus for annual premium paid in the first Policy Year	= HK\$100,000 x 28% = HK\$28,000

**Example a: Paid all Basic Premiums in the first Policy Year as scheduled**

Extra bonus payable under the policy in the first Policy Year

= HK\$28,000

**Example b: Stop paying Basic Premium starting from the second Policy Year (only Basic Premium in the first Policy Year has been paid in full and on time)**

The policy will be terminated after the Grace Period of the second Policy Year. The entire original amount of extra bonus paid in respect of the Basic Premium in the first Policy Year will be clawed back from the Account Value of the Basic Account before the calculation of surrender charge and the corresponding proceeds.

Extra bonus to be clawed back

= Extra bonus previously paid

= HK\$28,000

**Example c: Surrender in the Fourth Policy Year**

The policy will be terminated in the fourth Policy Year. The original amount of the extra bonus i.e. HK\$28,000 will be clawed back before applying the surrender charge. Surrender charge and surrender value payable will be calculated as below.

<b>Account Value of the Basic Account upon surrender</b>	HK\$409,276
<b>Applicable surrender charge rate</b>	13.0%
<b>Extra bonus to be clawed back</b>	HK\$28,000
<b>Surrender charge</b>	$= (\text{Account Value of the Basic Account upon surrender} - \text{extra bonus to be clawed back}) \times \text{applicable surrender charge rate}$ $= (\text{HK\$409,276} - \text{HK\$28,000}) \times 13.0\%$ $= \text{HK\$49,565}$
<b>Surrender value payable</b>	$= \text{Account Value of the Basic Account upon surrender} - \text{extra bonus to be clawed back} - \text{surrender charge}$ $= \text{HK\$409,276} - \text{HK\$28,000} - \text{HK\$49,565}$ $= \text{HK\$331,711}$

The above illustration is hypothetical and for illustrative purpose only.
